Dr. Joshua Lederberg
Stanford University
Stanford, Calif.

Dear Dr. Lederberg:

I wish to thank you very much for sending us your streptomycin dependent strain of E. coli K-12. I have isolated several dependent strains myself and if you are interested in having them I will be happy to send you the stocks.

We are still using the reprints on Drug Resistance and responses to inhibitors. I will return them shortly.

Thank you very much for sending us the reprints and strains.

Sincerely,

Susanne K. DeWitt
